

IN THE SPECIFICATION

Please amend the paragraph at page 15, lines 2-13, as follows:

At step S13, an application to be started is selected corresponding to the disc ID. At step S14, a process for starting the application A is performed. At step S15, a process for starting the application B is performed. At step S16, a process for starting the application C is performed. When an application is a manual, after the application has started, the manual thereof can be browsed on the personal computer. Alternatively, the manual is installed to the personal computer. If the disc ID does not represent the type of an application, an error process is performed for example an error message is displayed.
